

## **April Taylor Is A Hero On The Homefront**

**Plateau Records recording artist, April Taylor performed yesterday to an enthusiastic audience, as the guest of "Operation Homefront" on the site of the "First Annual CinCHouse Convention," which is being held in conjunction with the "WEST 2006" in San Diego. Taylor**

performed for convention attendees on a beautiful day aboard the historic ship, "Berkley," which is docked alongside the "H.M.S. Surprise," and the "Star Of India" in the San Diego Harbor.

"I am so excited to have to have been given the opportunity to perform at this event", says Taylor. "The hardships faced by those left behind, while our brave soldiers are deployed, is something that many of us are unaware of. We must never forget those who risk their lives for our country, but it is also our responsibility to help support their families as well."

Operation Homefront is a national 501(C)3 nonprofit organization whose mission is "to provide assistance with day-to-day issues for military families so that deployed service members are not preoccupied with the crisis at home". The organization invited April to perform at this year's event after hearing her single, "Hero At Home" which was released to radio a few months ago.
